To Whom it May Concern,

This is a letter of information regarding the Agriculture Expo titled Ag in Motion.

Ag in Motion is an annual event held near Langham, Saskatchewan on Highway 16. The 2018 dates are July 17-19. This outdoor trade show event showcases the newest technology in dryland farming techniques. Its primary purpose is to offer farmers a venue to learn through knowledge transfer from agriculture companies and post-secondary institutions. The focus of the event is large farm production of small grains, oilseeds, forage crops, corn, soybeans, beef cattle and dairy. There are nearly 500 companies that participate in the event. It attracts over 25,000 visitors.

Ag in Motion provides programming such as; live in-field demonstrations of agriculture equipment, crop plots and livestock handling; educational seminars and industry panel discussions; and social interaction between industry professionals.

Ag in Motion is open to visitors from outside of Canada to attend or exhibit at the event. It also offers International Visitors an exclusive area within the trade show to relax and visit with customers and suppliers.
